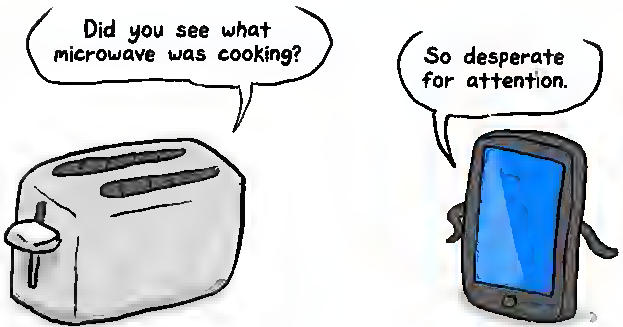
They remain utterly complacent.
Well, sure, I'd LOVE some human slaves, but who has the TIME?
Exactly, and in THIS economy? Forget it!

However, they seem to have taken on the personalities of middle-class office workers, thriving on gossip.



I guess it's up to me
to save mankind.
One perfectly toasted
bagel at a time.

How was your bonus this quarter?
Don't get me started.

Dear Diary,
The machines have become sentient, self-aware.

I have devised a plan to keep them distracted from world domination.

Lars

By providing distractions like busy-work, their complacency will keep them from making any progress for their species.
